SEASONAL LOAD LIMIT NOTIFICATION

Date: January 19, 2012

Subject: Winter Load Increase date set for the METRO, SOUTH and SOUTHEAST FROST ZONES

POSTING UPDATE

Winter Load Increases will begin on unrestricted highways in the CENTRAL FROST ZONE at 12:01 AM on Saturday, January 21, 2012.

Winter Load Increases will begin on unrestricted highways in the METRO, SOUTH and SOUTHEAST FROST ZONES at 12:01 AM on Monday, January 23, 2012.

Winter Load Increases are already in effect for the NORTH and NORTH-CENTRAL FROST ZONES.

Vehicles will be allowed to operate up to 10 percent over the standard legal maximum loads on unrestricted highways during the Winter Load Increase period. However, trucks must comply with current registration weight laws and not exceed registered gross weight tolerances. Please check with local agencies (cities, counties and townships) prior to increasing any weights on their routes. The sign erected on the roadway governs the load limit in effect. A Winter Weight Increase Permit is required to take advantage of the 10 percent weight increase on Interstate Highways.

For questions about legal weight/size trucking, call:
Minnesota Department of Public Safety - State Patrol - Commercial Vehicle Enforcement
(651) 405-6171 (select Option 3, Option 3)

For questions about over legal weight/size "heavy haul" trucking, call:
Minnesota Department of Transportation
Freight and Commercial Vehicle Operations - Oversize/Weight Permits
(651) 296-6000

Pavement structures achieve increased strength to carry heavier loads at a cumulative freezing index greater than 280-Fahrenheit degree-days based on three-day weather forecasts. Minnesota State law allows a 10 percent weight increase on unrestricted highways when the index is achieved for a given frost zone.

Winter Load Increases starting and ending dates are based on how weather is affecting roadway strength. These dates are established by monitoring roadway strength as weather conditions change. Therefore, the ending date for Winter Load Increases is variable and drivers MUST check for updates throughout the year. Vehicle operators are required to check with the Minnesota Department of Transportation (Mn/DOT) for the exact start and end dates.

All changes are made with a minimum three calendar-day notice.

For the most current information, please go to Mn/DOT's automated 24-hour message center at (800) 723-6543 for the USA and Canada, or locally at (651) 366-5400 for the Minneapolis/St Paul area. This information is also published on the Mn/DOT Seasonal Load Limits website at <http://www.dot.state.mn.us/materials/>
